BIODIVERSITY CONSERVATION TRUST FOUNDATION (BCTF)

Founder: Dr. M. A. Bashar

JBCBM Advisory Board

Prof. Dr. Abu Hassan Ahmad,
University Sains Malaysia, Malaysia

Prof. Dr. A. R. Shakoori,
University of the Punjab, Pakistan

Prof. Dr. Z. N. Tahmida Begum,
University of Dhaka, Bangladesh

Prof. Dr. Musharraf Hossain Mian,
Bangladesh Agricultural University, Bangladesh

Prof. Dr. Samiran Chakrabarti,
University of Kalyani, India

Prof. Dr. M. Nurul Islam (Ex. V. C.),
Mawlana Bhashani S & T University, Bangladesh

Prof. Dr. Pramod Kumar Jha,
Tribhuvan University, Nepal

Prof. Dr. Noor Jahan Sarker,
University of Dhaka, Bangladesh

Prof. Dr. Yearul Kabir,
University of Dhaka, Bangladesh

Dr. F. H. Ansarey, Executive Director,
ACI Pvt. Ltd., Bangladesh

Prof. Dr. Marc Jarry,
IBEAS, University of PAU, France

Dr. Gerard Fabres,
Institut National de la Recherche Agronomique, France

Prof. M. A. Halim Khan,
Bangladesh Agricultural University, Bangladesh

Prof. Dr. Mohammed Shafi,
University of Dhaka, Bangladesh

Prof. Dr. A. T. A. Ahmed,
University of Dhaka, Bangladesh

Prof. Dr. Shahadat Hossain Mondal,
University of Rajshahi, Bangladesh

Prof. Dr. Ahmed Mustafa,
Purdue University, Fort Wayne, USA

Prof. Dr. Md. Abbas Ali Khan,
University of Dhaka, Bangladesh

Prof. Dr. Badrul Amin Bhuiya,
University of Chittagong, Bangladesh

Dr. Mokhlesur Rahman,
Centre for Natural Resource Studies, Bangladesh

Editorial Board

Prof. Dr. M. A. Bashar — Editor-in-Chief

Prof. H. R. Khan — Associate Editor

Members

Prof. Dr. R. M. Shahjahan
Department of Zoology, University of Dhaka

Prof. Dr. M. A. Bashar
Department of Botany, University of Dhaka

Prof. Dr. S. Hoque
Department of Soil, Water & Environment,
University of Dhaka

Prof. Dr. A. R. Mollah
Department of Zoology, University of Dhaka

Prof. Dr. M. A. A. Akhand
Department of Genetic Engineering and
Biotechnology, University of Dhaka

Dr. M. S. Alam
Department of Zoology, University of Dhaka

Ex-officio member: General Secretary, BCTF

The Journal of Biodiversity Conservation and Bioresource Management

In today's world, one of the concerned issues to humans is biodiversity and its protection. At present the management and sustainable conservation of biodiversity on the planet is the greatest challenge for human civilization in the planet now. Unfortunately, the term is not well recognized yet to the people at its optimum use. Biodiversity is a complex concept referring to the variety of living entities on the planet in association with their surroundings. The conceptual abstract encompasses three basic components of biodiversity, namely ecosystem diversity, species diversity and genetic diversity. Biodiversity embraces proper distribution and sustainable management of bioresources, analysis of ecosystem services and assurance of conserving genetic resources. The components are inter-linked; biodiversity conservation needs conservation of the linkage through proper researches in the field. Through the integration with diverse disciplines, biodiversity plays priceless contributions in different horizons, such as poverty, food security, livestock, fisheries, forest, wildlife, transport sector, trade policy, ecotourism, human health etc. of our life. Immense implications of biodiversity in economic as well as environmental aspects are truly inevitable. When the precious values of biodiversity in various aspects often remain unjustified behind our vision and beyond our perception then bioresource key-element assessment might be performed by aiming to optimize and evaluate the efforts on researches delivered by the biodiversity researchers. An opportunity for sharing would be created through launching such a new journal to document the researches. It will promote the sharing of ideas on utilization, reliability and sustainable use of bioresources among the researchers through enhancing network and communication in a scholastic way. Focusing the aim, it stands necessary now to express towards the world about the necessity of biodiversity, value of biodiversity, protection and conservation of biodiversity. Our aim is to reach the goal by materializing the following tasks:

- *To focus researches on biodiversity, conservation of biodiversity and management of bioresources at local as well as global levels;*
- *To accommodate outcomes of researches through collaboration and cooperation among the organizations of various disciplines at national and international levels;*
- *To select key words in the field of biodiversity and bioresource management following a technique by going through the journal; examples would be stated as waste-product management, colonization, colonization of butterflies, synchronization of coincidences (temporal and spatial) of biotic factors, biotic epicentre, identification of bioresources, bioresource managements, etc.;*
- *To enhance quality of writings as well as inspiring researchers to deliver their optimum efforts towards researches in the field of biodiversity and bioresource management;*
- *To encourage the researchers in the above disciplines towards the management of human resources also in the society.*

Therefore, considering immense importance of biodiversity we intend to launch a scientific research based new journal entitled “***Journal of Biodiversity Conservation and Bioresource Management***” as the spokesman of biodiversity aiming towards the documentation of researches on biodiversity and related fields. The Biodiversity Conservation Trust Foundation (BCTF) intends to take responsibility for bringing the journal to light and we hope that it will fulfill the aspiration of biodiversity researchers. It will commence an open access for implementing strategies to publicize the researches' results to the public for creating and raising awareness among people to make them 'realized' the practicality about the vast roles of biodiversity and bioresources in their daily life.

CONTENTS

| | |
|--|----|
| Bashar, M. A. - Vision on biodiversity: example of ecosystem services in Bangladesh | 1 |
| Fatema, K., W. M. W. Omar, M. M. Isa and A. Omar - Composition and abundance of zooplankton in the Merbok estuary, Malaysia in relation to tidal influence | 7 |
| Taniya, A. J., Y. Kabir and M. M. Hoque - Occurrence of emerging food borne pathogens in fast foods and its control by essential oils (EOs) | 19 |
| Hossain, M. S., M. Z. Alam, M. R. U. Miah, M. I. H. Mian and M. T. Hossain - Effect of alternative nectar source on bee health in the dearth period management of honey bee (<i>Apis mellifera</i> L.) | 29 |
| Patwary, R., M. Rashid and A. R. Khan - Occurrence of enteric pathogens and estimation of physico-chemical parameters of sewage effluents of Pagla treatment plant, Dhaka | 41 |
| Rahman, M. A., M. F. Ahemd and M. E. Rashid - Plant diversity of the Hakaluki Haor of Bangladesh and its management issues | 47 |
| Shamsi, S. and M. Al-Mamun - Diversity of fungi associated with fallen dead spadix of <i>Cocos nucifera</i> L. | 61 |
| Begum, M. - Histo-morphology of the larvae of <i>Aedes aegypti</i> (L.) (Diptera: Culicidae) | 69 |
| Nasrin, N., Q. Z. Hossain, M. Z. Haque and B. K. Saha - Physicochemical properties of different unifloral blossom honey produced in different regions of Bangladesh | 75 |
