BIODIVERSITY CONSERVATION TRUST FOUNDATION (BCTF)

Founder: Dr. M. A. Bashar

JBCBM Advisory Board

Prof. Dr. Abu Hassan Ahmad,
University Sains Malaysia, Malaysia

Prof. Dr. A. R. Shakoori,
University of the Punjab, Pakistan

Prof. Dr. Z. N. Tahmida Begum,
University of Dhaka, Bangladesh

Prof. Dr. Musharraf Hossain Mian (Ex. V. C.),
Bangladesh Agricultural University, Bangladesh

Prof. Dr. Samiran Chakrabarti,
University of Kalyani, India

Prof. Dr. M. Nurul Islam (Ex. V. C.),
Mawlana Bhashani S & T University, Bangladesh

Prof. Dr. Pramod Kumar Jha,
Tribhuvan University, Nepal

Prof. Dr. Noor Jahan Sarker,
University of Dhaka, Bangladesh

Prof. Dr. Yearul Kabir,
University of Dhaka, Bangladesh

Dr. F. H. Ansarey, Executive Director,
ACI Pvt. Ltd., Bangladesh

Dr. Mokhlesur Rahman,
Centre for Natural Resource Studies, Bangladesh

Prof. Dr. Marc Jarry,
IBEAS, University of PAU, France

Dr. Gerard Fabres,
Institut National de la Recherche Agronomique, France

Prof. Dr. Sankar K. Ghosh (V. C.)

University of Kalyani, WB, India

Prof. M. A. Halim Khan (Ex. V. C.),
BSMRKB, Bangladesh

Prof. Dr. Mohammed Shafi,
University of Dhaka, Bangladesh

Prof. Dr. Susanta Kumar Chakraborty
Vidyasagar University, India

Prof. Dr. A. T. A. Ahmed,
University of Dhaka, Bangladesh

Prof. Dr. Shahadat Hossain Mondal,
University of Rajshahi, Bangladesh

Prof. Dr. Ahmed Mustafa,
Purdue University, Fort Wayne, USA

Prof. Dr. Mahfuzul Hoque
University of Dhaka, Bangladesh

Prof. Dr. Badrul Amin Bhuiya,
University of Chittagong, Bangladesh

Editorial Board

Prof. Dr. M. A. Bashar — Editor-in-Chief

Prof. H. R. Khan — Executive Editor

Members

Prof. Dr. R. M. Shahjahan
Department of Zoology, University of Dhaka

Prof. Dr. M. A. Bashar
Department of Botany, University of Dhaka

Prof. Dr. S. Hoque
Department of Soil, Water & Environment,
University of Dhaka

Prof. Dr. A. R. Mollah
Department of Zoology, University of Dhaka

Prof. Dr. M. A. A. Akhand
Department of Genetic Engineering and
Biotechnology, University of Dhaka

Dr. M. S. Alam
Department of Zoology, University of Dhaka

Ex-officio member: General Secretary, BCTF

The Journal

In today's world, one of the most concerned issues to humans is the biodiversity protection. The management of biodiversity conservation is the greatest challenge for human civilization on the planet now. Unfortunately, the term is not well recognized yet to the people at its optimum use. Biodiversity is a complex concept referring to the variety of living entities on the planet in association with their surroundings. The conceptual abstract encompasses three basic components of biodiversity, namely ecosystem diversity, species diversity and genetic diversity. Biodiversity embraces proper distribution and sustainable management of bioresources, analysis of ecosystem services and assurance of conserving genetic resources. The components are inter-linked; biodiversity conservation needs conservation of the linkage through proper researches in the field. Through the integration with diverse disciplines, biodiversity carries priceless contributions in different horizons, such as poverty, food security, livestock, fisheries, forest, wildlife, transport sector, trade policy, ecotourism, human health etc. of our life. Immense implications of biodiversity in economic as well as environmental aspects are truly inevitable. When the precious values of biodiversity in various aspects often remain unjustified behind our vision and beyond our perception then bioresource key-element assessment might be performed by aiming to optimize and evaluate the efforts on researches delivered by the biodiversity researchers. An opportunity for sharing would be created through launching such a new journal to document the researches. It will promote the sharing of ideas on utilization, reliability and sustainable use of bioresources among the researchers through enhancing network and communication in a scholastic way. Focusing the aim, it stands necessary now to express towards the world about the necessity of biodiversity, value of biodiversity, protection and conservation of biodiversity. Our aim is to reach the goal by materializing the following tasks:

- *To focus researches on biodiversity, conservation of biodiversity and management of bioresources at local as well as global levels;*
- *To accommodate outcomes of researches through collaboration and cooperation among the organizations of various disciplines at national and international levels;*
- *To select key words in the field of biodiversity and bioresource management following a technique by going through the journal; examples would be stated as waste-product management, colonization, colonization of butterflies, synchronization of coincidences (temporal and spatial) of biotic factors, biotic epicentre, identification of bioresources, bioresource managements, etc.;*
- *To enhance quality of writings as well as inspiring researchers to deliver their optimum efforts towards researches in the field of biodiversity and bioresource management;*
- *To encourage the researchers in the above disciplines towards the management of human resources also in the society.*

Considering the immense importance of biodiversity we intended to launch a scientific research based new journal "***Journal of Biodiversity Conservation and Bioresource Management***" as the spokesman of biodiversity. This was aimed towards the documentation of researches on biodiversity and related fields. The Biodiversity Conservation Trust Foundation (BCTF) intends to take responsibility for bringing the journal to light and we hope that it will fulfill the aspiration of biodiversity researchers. It will commence an open access for implementing strategies to publicize the research findings to the people. This shall create and raise awareness among general mass to make them 'realized' the practicality of the roles of biodiversity and bioresources in their daily life.

JBCBM deals with all plants and animals considering them as bioresources from bimodal (two ways of doing things) ideas. Firstly, plants and animals in different forms are the wealths and resources for the humans. Secondly, these are the vital tools to use as the sources to keep the environment sound on the planet. Technique-innovations on utilization of the bioresources should be the stand point of researches in the field of bioresource management. The JBCBM attempts to advance in the line. By this time, the JBCBM has published four issues (2 volumes) successfully. We shall gratefully appreciate any kind of modifications, suggestions and support from different corners of the research frontiers.

CONTENTS

| | |
|--|----|
| Mohajan, B., M. K. Hossain, A. A. Mahmud and B. M. Khan - Diversity and structural composition of indigenous tree species at Kaptai Deer Breeding Centre of Rangamati south forest division, Bangladesh | 1 |
| Rakib, M., M. A. Siddiquee and Y. Kabir - Effect of combined doses on the uptake of cadmium, chromium and lead by the rice plant (<i>Oryza sativa</i> L.) | 11 |
| Jha, S. K. and S. Balami - Nutritive value of some wild edible macrofungi from Devdaha, Rupandehi district, Nepal | 19 |
| Raknuzzaman, M., M. S. Islam, M. H. Al-Mamun and S. Masunaga - Assessment of seasonal variation of trace metals in some commercial fish and crustacean in the coastal area of Bangladesh | 27 |
| Akand, S., M. A. Bashar, H. R. Khan and S. Rahman - Abundance and some behavioural aspects of lycaenid butterflies in the Butterfly Research Park at the Bhawal National Park, Gazipur | 39 |
| Bose, D., J. G. Roy, S. D. Mahapatra (Sarkar), T. Datta, S. D. Mahapatra and H. Biswas - An account of “leaf drug” among medicinal plant resources of Jalpaiguri district, West Bengal, India | 47 |
| Aich, U., S. Chowdhury, S. Akand, S. Rahman, K. Chowdhury, Z. Sultan and M. A. Bashar - Synchronization of coincidences between the life stages of <i>Pachliopta aristolochiae</i> and the phenological stages of its host plant <i>Aristolochia indica</i> | 61 |
| Rahman, M. A. and I. Jahan - An enumeration of the medicinal species of the Fabaceae presumably extinct from the flora of Bangladesh | 69 |
| Khan, H. R., H. Afia, J. I. Rahman and T. Tanjina - Larvicidal activity of neem (<i>Azadirachta indica</i> A. Juss) leaf extracts against the mosquito larvae of <i>Culex quinquefasciatus</i> (Say) (Diptera: Culicidae) | 83 |
