Prof. Dr. S. Hoque Department of Soil, Water & Environment, University of Dhaka	Prof. Dr. M. S. Alam Department of Zoology, University of Dhaka

Ex-officio member: Dr. Most. Sajeda Akand, BCTF Representative

The Journal

In today's world, one of the most concerned issues to humans is the biodiversity protection. The management of biodiversity conservation is the greatest challenge for human civilization on the planet now. Unfortunately, the term is not well recognized yet to the people at its optimum use. Biodiversity is a complex concept referring to the variety of living entities on the planet in association with their surroundings. The conceptual abstract encompasses three basic components of biodiversity, namely ecosystem diversity, species diversity and genetic diversity. Biodiversity embraces proper distribution and sustainable management of bioresources, analysis of ecosystem services and assurance of conserving genetic resources. The components are inter-linked; biodiversity conservation needs conservation of the linkage through proper researches in the field. Through the integration with diverse disciplines, biodiversity carries priceless contributions in different horizons, such as poverty, food security, livestock, fisheries, forest, wildlife, transport sector, trade policy, ecotourism, human health etc. of our life. Immense implications of biodiversity in economic as well as environmental aspects are truly inevitable. When the precious values of biodiversity in various aspects often remain unjustified behind our vision and beyond our perception then bioresource key-element assessment might be performed by aiming to optimize and evaluate the efforts on researches delivered by the biodiversity researchers. An opportunity for sharing would be created through launching such a new journal to document the researches. It will promote the sharing of ideas on utilization, reliability and sustainable use of bioresources among the researchers through enhancing network and communication in a scholastic way. Focusing the aim, it stands necessary now to express towards the world about the necessity of biodiversity, value of biodiversity, protection and conservation of biodiversity. Our aim is to reach the goal by materializing the following tasks:

- *To focus researches on biodiversity, conservation of biodiversity and management of bioresources at local as well as global levels;*
- *To accommodate outcomes of researches through collaboration and cooperation among the organizations of various disciplines at national and international levels;*
- *To select key words in the field of biodiversity and bioresource management following a technique by going through the journal; examples would be stated as waste-product management, colonization, butterfly colonization, synchronization of coincidences (temporal and spatial) of biotic factors, biotic epicentre, identification of bioresources, bioresource managements, etc.;*
- *To enhance quality of writings as well as inspiring researchers to deliver their optimum efforts towards researches in the field of biodiversity and bioresource management;*
- *To encourage the researchers in the above disciplines towards the management of human resources also in the society.*

Considering the immense importance of biodiversity we intended to launch a scientific research based new journal "***Journal of Biodiversity Conservation and Bioresource Management***" as the spokesman of biodiversity. This was aimed towards the documentation of researches on biodiversity and related fields. The Biodiversity Conservation Trust Foundation (BCTF) intends to take responsibility for bringing the journal to light and we hope that it will fulfill the aspiration of biodiversity researchers. It will commence an open access for implementing strategies to publicize the research findings to the people. This shall create and raise awareness among general mass to make them 'realized' the practicality of the roles of biodiversity and bioresources in their daily life.

JBCBM deals with all plants and animals considering them as bioresources from bimodal (two ways of doing things) ideas. Firstly, plants and animals in different forms are the wealth and resources for the humans. Secondly, these are the vital tools to use as the sources to keep the environment sound on the planet. Technique-innovations on utilization of the bioresources should be the stand point of researches in the field of bioresource management. The JBCBM attempts to advance in the line. By December 2019, the JBCBM has published 10 issues in 5 volumes very successfully starting from 2015. We gratefully appreciate any kind of modifications, suggestions and support from different sources to enhance the standard and volumes of the JBCBM.

CONTENTS

Rahman, M. A., M. A. Alim, M. K. Hossain and M. A. Hossain - Prospect of natural regeneration of tree species in Hazarikhil Wildlife Sanctuary of Chattogram, Bangladesh DOI: https://doi.org/10.3329/jbcm.v5i2.44909	1
Sharif, A. T., A. H. M. Z. Ali and M. K. Rahman - Effects of copper and vermicompost on growth and yield of cowpea (<i>Vigna unguiculata</i> L.) Walp and nutrient accumulation in its fruits DOI: https://doi.org/10.3329/jbcm.v5i2.44910	13
Akand, S., M. A. Bashar and H. R. Khan - Status of lycaenid butterflies in some selected forests of Bangladesh DOI: https://doi.org/10.3329/jbcm.v5i2.44911	19
Hasan, M., N. Gani, M. D. Alam and M. T. A. Chowdhury - Effects of old jute seeds on soil fertility and jute production DOI: https://doi.org/10.3329/jbcm.v5i2.44912	33
Nasiruddin, M., M. A. Azadi, M. R. Chowdhury and R. A. H. Tonni - Larvicidal effects of some plant seed extracts on <i>Anopheles annularis</i> Vander Wulp and <i>Culex quinquefasciatus</i> Say (Diptera: Culicidae) DOI: https://doi.org/10.3329/jbcm.v5i2.44913	41
Zaman, M. and M. N. Naser – Fish species using the fish passage between Jamuna and Bangali river at Sariakandi, Bogra DOI: https://doi.org/10.3329/jbcm.v5i2.44914	53
Mazumdar, S. and M. I. Miah - Diversity and abundance of parasitic wasps (Insecta: Hymenoptera) of Bangladesh DOI: https://doi.org/10.3329/jbcm.v5i2.44915	63
Nishi, K. N., S. Rahman, K. Nakamura and M. K. Rahman - Influence of vermicompost and NPK on the growth and protein content of boro rice (<i>Oryza sativa</i> L.) DOI: https://doi.org/10.3329/jbcm.v5i2.44916	69
Biswas, V. and D. Raychaudhuri - Taxonomic account of orb-weaving spider genus <i>Cyrtarachne</i> Thorell, 1868 (Araneae: Araneidae) of Bangladesh DOI: https://doi.org/10.3329/jbcm.v5i2.44917	75
Jasmin, P., W. Z. Prian, M. N. Mondol, S. M. Ullah and A. S. Chamon - Effects of lead on growth, yield and mineral nutrition of rice (<i>Oryza sativa</i> L.) DOI: https://doi.org/10.3329/jbcm.v5i2.44918	83
Sarkar, A. K., M. N. Islam and F. H. Ansary - Some aspects of shrimp farming systems and shrimp production management: Bangladesh perspective DOI: https://doi.org/10.3329/jbcm.v5i2.44919	93
Bhuiyan, M. A. H., A. Kowser, S. A. M. S. Islam, M. Mohid, M. R. Islam, S. A. Kakoly, K. Asaduzzaman and M. Khondker - Phytoplankton flora of Tanguar Haor ecosystem of Bangladesh: Chlorophyta DOI: https://doi.org/10.3329/jbcm.v5i2.44920	101
Bhattacharjee, S. C., M. M. Matin and M. Nasiruddin - Insecticidal effects of two medicinal plants <i>Polygonum hydropiper</i> L. and <i>Abrus precatorius</i> L. leaves against the rice weevil <i>Sitophilus oryzae</i> L. (Coleoptera: Curculionidae) DOI: https://doi.org/10.3329/jbcm.v5i2.44921	107
Jannat, M., M. Kamruzzaman, M. A. Hossain and M. K. Hossain - Tree species diversity in the forest of Renikhayong para village in Bandarban, Bangladesh: a case study DOI: https://doi.org/10.3329/jbcm.v5i2.44922	115
